Experience

April 2024 – Present 📍 Summerside
Code Instructor
Code Ninjas

- Educated children ages 6-16 in foundational programming concepts using industry-standard languages such as JavaScript, Lua, HTML/CSS, and C#.
- Guided students through game development using Microsoft MakeCode, Roblox Studio, and Unity.
- Delivered individualized debugging support and fostered strong computational thinking and problem-solving skills
- Led additional workshops in Unity, 3D printing, and Arduino programming.
- Maintained a collaborative and engaging classroom environment while encouraging curiosity, technical confidence, and early interest in STEM.
- Adapted lessons to a wide range of age groups and experience levels, tailoring instruction to suit each student's learning style.
- Worked with neurodiverse students and individuals with special needs.

August 2022 – April 2024 📍 West Edmonton Mall
Sales Associate
Tip Top Tailors

- Delivered personalized suit fittings and styling recommendations to enhance the client experience.
- Maintained visual merchandising standards and product presentation.
- Communicated product features clearly to support informed purchasing decisions.
- Built lasting customer relationships.
- Demonstrated flexibility and reliability in a fast-paced retail environment.

October 2018 – August 2022 📍 South Common
Host/Server Assistant/Games Attendant
The Rec Room

- Cross-trained across multiple front-of-house roles to support a high-volume entertainment venue.
- Delivered outstanding guest service by resolving concerns quickly and maintaining a welcoming atmosphere.
- Operated and maintained all major attractions, including VR stations, CXC simulators, bowling lanes, and axe throwing.
- Supported both bartenders and servers as a trained hand during peak hours.

Summary of Qualifications and Skills

- Strong communication and interpersonal abilities with a proactive, problem-solving mindset
- Highly organized and adaptable, capable of multitasking in dynamic environments.
- Fast learner with a proven ability to quickly grasp new tools, systems, and technologies
- Experienced in all forms of public speaking roles
- Passionate about emerging technologies, including VR, AI, and game development
- Proficient in Adobe Creative Cloud, video editing tools, and office productivity software
- Collaborative team player with a background in acting and directing, enhancing creativity and working with large groups
- Comfortable navigating unfamiliar challenges and learning on the fly
- Physically capable and dependable; ready to assist in diverse roles and settings
- Experienced in POS systems, cash handling, and delivering excellent customer service
